COST OF ROAD IMPROVEMENT TO BE SMALL

IMPROVEMENT OF WEST ROAD WILL NOT FURNISH HEAVY TAX LOAD.

Hear Objections To Work April 4

That there is every expectation of the improvement of the road west from Alma for a distance of four and one-half miles this coming summer, is seen from notices of hearing of objections to the improvement, which have been issued by the state highway department.

Of late there has been some talk against the improvement of this road for which a petition was submitted to the state department, because in one or two instances it has been reported that the work would cost too much. Information relative to the cost for the various townships, received by James Gibbs of the Gratiot County Board of Road Commissioners from the state department indicates that the cost is very reasonable.

The county is to pay only 25 per cent of the cost of the improvement as a whole. The county directly will pay 12 per cent of the 25. Arcadia township will pay two and one-fourth per cent of the cost and Pine River township the same amount. Seville and Sumner townships will each be asked to pay one and three-fourths per cent of the cost. The assessment district on each side of the road to be improved and from some distance from the road will be asked to pay 5 per cent of the cost. The state will pay 75 per cent of the total cost of the entire road.

The submitting of the petition for the improvement of this road brings it under the Covert system, and its cost will be defrayed by six per cent bonds if desired, covering a period suitable to those who will be required to pay the cost of improving the road. Mr. Gibbs of the road commission has estimated that if the four and one-half miles of road were paved, that the above spreading of the tax, based on paving cost of \$35,000 per mile would be only \$1.00 per acre over the assessment district.

Present plans for the improvement of the road which the state department has ready, but which are not final and will not become final in any event until after the hearing of objections April 4, call for the grading of the road, a cost that would be far smaller as the construction of such road is much cheaper, even though it may not be as satisfactory in the long run as the concrete paving.

The matter is up to the people in the district who will be benefited greatly by the improvement of the road as to what kind of a road they most desire, as the present plans are by no means final. If they desire to have the better concrete road and press the department for this type of road it is probable that they will secure it.

The department's notice of hearing of objections in regard to this issue will be found elsewhere in this issue.

Orchestra Gave Pleasing Concert

The concert given by the Di Giorgio Concert Orchestra Monday evening in the high school auditorium, as the last regular number of the Community Lyceum Course proved highly pleasing to the large number that attended this musical event, which was without a doubt the strongest number on the entire course.

Especially pleasing were the various solo numbers rendered by Mrs. Di Giorgio on the cornet, the xylophone solo numbers by Fortunata Di Giorgio, the Alpine horn solos by Sig. Di Giorgio and the violin numbers by Adeline Di Giorgio.

The audience that attended the event was the largest that has greeted any of the lyceum course numbers and the applause which greeted the various musical numbers gave every evidence that the audience thoroughly appreciated the work of the artists.

WILLYS-KNIGHT

At a Low New Price of

\$1375

This car of refinement and quality is now within the means of those who have considered such a car beyond their hopes

It combines, in addition to the advantages of other fine cars, all of the advantages of the Knight type sleeve-valve motor.

This Willys-Knight motor actually improves—grows more powerful with use—a quality which distinguishes it from all other motors.

It requires no adjustments. It is more flexible—and it always operates quietly.

It is more powerful than any other motor of equal size, and because of this, the Willys-Knight car consumes less gasoline than any other car of equal power and weight.

These important advantages added to the beauty, economy, road comfort and extraordinary long life of the Willys-Knight car explain the enthusiasm of more than 50,000 owners.

Touring reduced \$150; now \$1375. Roadster reduced \$125; now \$1350
Coupe reduced \$320; now \$1875. Sedan reduced \$300; now \$2095
